**Subject: Re: GRAMA Request**

Cliff,

Here is the information I have located:

1. The district does not have separate guidelines from the Human Sexuality guidelines we receive from the USBE.

4. Jared Butler and Kyle Willson teach health at both senior highs and this is their statement: I have attended all of the training's the district has had on this topic in the last 13 years, I'm not sure on any specific dates. I use the materials received at these training's. I use the Glencoe teacher addition on human sexuality that is a companion to the students health text book. Mary Bronson Merki, Ph.D, author, ISBN#0-07-830946-8 I use a book received at one of the district training's called, A resource guide for parents and teachers on teaching human sexuality. The book is revised in 2006, produced by the UT state office of education, Patti Harrington, Ed.D. State superintendent of public instruction. Kyle Willson indicated that he uses these same materials.

Doug Morris at Carbon High uses this Textbook:

Mader's Understanding Human Anatomy & Physiology, 8th edition. This includes digital licenses for each student.

Author is Sue Longenbaker

Publisher is McGraw-Hill

ISBN 978-0-07-665177-1

Curriculum followed and taught is outlined by the Utah Office of Education Strands and Standards: Medical Anatomy & Physiology and is found below. If you would like to see the full document that outlines this you can follow the link <http://www.schools.utah.gov/CTE/hs/DOCS/standards/MAP.aspx>

This curriculum has yet to be taught at Carbon High. This is year one for this course and Strand 15 will be covered at the end of the year.

Fifth grade teachers and principals provide the maturation program and it is provided by the health department and the district's school nurse.

8. Our teachers attended sex ed training offered by the state in 2010 and October 4, 2013. We do not have an active HSRC. Our committee was active during the adoption of our current materials.

Hi Judy,

I'm just checking in to see whether you have had a chance to make any progress on my GRAMA request.

Thank you,

Cliff

>> Hi Judy,

>>

>> Thank you for your message. I'm still not sure what happened to my original GRAMA request, which was signed for by Nelda Grundy on October 3, 2016.

>>

>> But of course, I appreciate the time, effort and resources that you are investing in this response, and I'm happy to give you a couple of extra days. If you are able to confirm that your district does not keep any records of committee meetings, please just let me know. As I explained in my letter, you are not required to release records that do not exist.

>>> Superintendent forwarded this request to me today. Last Friday he gave me your written request. If you can give me a couple of days to look into this request, I would appreciate it. I am not sure we have kept records of committee meetings. I know this is urgent. I will move as quickly as I can. Thanks for your reminder.
